HEIs obtain gradually more financial autonomy and self-governance.

5 GENERAL SECONDARY EDUCATION AND ACCESS TO HIGHER EDUCATION

General secondary education is under the reform to implement 12 year program (till 2030) to replace 11 year program.

A new reality for the lecturing for the students online by the Ukrainian professor who is defending Ukraine and Whole World...

The support in various fields is important: humanitarian, military, economic, education and research, open resources, free access to professional networks/labs; new infrastructure.

In spite of the war, the education started on 14 March in distance/blended learning format!!!
24 regions of Ukraine are providing higher education in distance format; 12 – in blended format!!!

Challenges for cooperation under projects

Life-safety
Water, food
Sheltering
Access
Computers
Communication
Internet

- To find contact information of the HEIs to discuss support needed
- Force Major Circumstances: suspend or continue with redesigning – urgently inform your project coordinator & officer
- Contact NEO – Ukraine, put in copy during correspondence, we are here to help!!!
- Staff safety, activities delays, changes, damages, new workplan/ activities etc.
- Payments delay, state treasury and banks issues etc. However changes to Regulation adopted already to allow payments under the projects - [New Regulation at the link](#)
- To receive the permission from the management for staff&studnets mobility
- To apply flexibility within Ukrainian HEIs:
 - updates for the Internal Regulations on the International Cooperation/
Mobility is required
 - Nomination vs Selection – procedures updates if needed
 - Signatures of Interinstitutional Agreements
 - Explanation to the Erasmus+ partners on the recognition mechanisms etc.

Challenges for cooperation

- Institutional regulation for Mobility does not reflect the war time!
- Not ready/able to apply flexibility
- Recognition by the EU universities of prior study or belonging to the university without the documents which were lost/destroyed during war/ recognition for mobility periods
- Study or Traineeship for 1st year students, longer period of semester 4th year students
- Teaching, Training, Job shadowing for staff
- Passport/visa and crossing the border
- The male students and staff are not allowed to cross the border with some exceptions!!!

Additional conditions and docs are required:

Crossing border by male students and staff during Martial Law is regulated by the Decree of the President of Ukraine of 24.02.2022 № 64/2022 «On the imposition of martial law in Ukraine» prohibits male Ukrainian citizens aged 18 to 60 from travelling abroad.

The Cabinet of Ministers of Ukraine Regulation № 264 dated as of 12/03/2022 (<https://zakon.rada.gov.ua/laws/show/264-2022-%D0%BF#Text>) regulated exceptions which include among other things: "... students for higher education, graduate students and doctoral students studying abroad in full-time or dual forms of education (students, learners); people with disabilities and accompanying persons..."

They need to have obligatory the military center certificate about the reason why they are not at the military service*.

Support to respond the needs

Modern and innovative
Kharkiv Specialised
School #17 was not a
military target as well
as 144 other !!!

- Support to safety of people: temporarily displaced/relocated (internally and internationally).
- Humanitarian aid to the Ukrainian educational institutions who host the temporarily relocated people and institutions. Psychological support is needed too!
- Access to the education process, platforms, servers relocation, infrastructure rebuilding, simulators, equipment for labs etc.
- Open resources (open university prototype) – European University Alliances piloting
- Support to the educational and research institutions:

Staff – safe place to live/job, mobility grants, in-service training, job shadowing, staff weeks, join the research&projects teams, new proposals writing, curricula modernisation, new methodologies and technologies, preparation of double programmes, development courses in foreign languages, language courses, trainings for proposals writing, free access to join professional associations etc.

Students – summer schools for students, physical/virtual exchanges, laptops, Internet access, access to labs for practical classes, free listeners offline etc.

Support to respond the needs

- Funding mobility to staff, students&youth: already on Erasmus and grants for new.
- Support to Ukrainian students and staff – education & research:

NOT via joint support platforms for Ukrainians, Russians, and Belarusians: do not equal those suffering from a bloody war with those whose governments directly support it – ‘victims of war’ ≠ ‘victims of totalitarian regime’.

- Virtual exchanges and mobility – physical mobility is limited to some staff/students; lack of staff!!!
- Joint webinar on professional topics/ methodologies: in-service training, dialogue/exchange.
- Develop a Certificate with list of learning outcomes for staff and students recognition!!!
- Opportunities to study in parallel on Erasmus and at home university:
- [#StudyForUkraine with #ESNKyiv](#) – initiative!
- **No brain drain!!! Instead:**
- Ukrainian students and staff could become Ambassadors of their University for more cooperation, visiting several faculties and universities in the city where they are promoting the University and Ukraine!!!
- Additional task for all Ukrainians abroad: help students to contact their home university!
- It is critical, many of students are lost and after one failure to contact their university do not try again! Help other universities too!!!
- We are all Ukrainians!

Steps to do

- Map the need of the support: staff, students, institution
- Discuss with current projects teams what can be done within their activities
- What should be redesigned and apply to EACEA, NA or partners for approval (put NEO in copy)
- Formulate the needs into the short projects up to 2 pages: objectives, activities, outcomes, partnership, resources required
- Prepare the e-letter to the partners – existing or new
- Ask what are the opportunities within and above Erasmus+
- Send the letters and agree on the virtual/physical meetings to discuss
- Share you university needs with your staff and students who are abroad to promote these ideas widely in their universities and others in the city
- Request your staff abroad to organise a project writing together with their host partners universities to apply for Erasmus+, Horizon Europe etc. (or proposal writing trainings).
- Contact NEO – Ukraine for (group) consultation to work out on the proposals with concrete ideas.

Urgent support needed!!!

Online Admission 2022
