# Extraordinary measures implementation

## Extraordinary measures

## Ongoing Projects

**Not all E+ Projects are eligible for incoming Ukrainian mobilities**

- ❖ Projects initially planned and financed by intra-european funding (KA103) within 2014-2020 framework are not eligible to host Ukrainian mobilities.
- ❖ Beneficiaries that have not included Ukraine in their KA107 projects will not be able to make use of the abovementioned flexibility measures.

## Extraordinary measures

## Geographical coverage

Different measures and actions for different geographical areas

## Extraordinary measures

### Eligibility of activities

Activity	KA131	KA107
<b>SMS</b>	Eligible, according to the criteria E+Guide	
<b>SMT</b>	Included recent graduates	<b>Recent graduates are not eligible</b>
<b>STA</b>	Included invited staff from non-HEI organisations	
<b>STT</b>	Activity may be hosted either at the beneficiary HEI or, in a non-HEI organization	

**Compliance with Erasmus+ objectives**

## Extraordinary measures

### Eligibility of activities

#### NEW FLEXIBILITY

- No need for an inter-institutional agreement
- No need for nominations
- Learning agreement/staff mobility agreement is signed only between the participant and the receiving institution
- Simplifying the evidence required for language proficiency
- Flexibility in eligibility checks based on admissible documents

#### QUALITY REQUIREMENTS

- In line with the eligible activities under the Erasmus+
- Projects can not stray away from their original objectives
- The use of Erasmus+ for purposes other than eligible project activities (e.g. purchase of materials and services without any link to the project activities) is not allowed

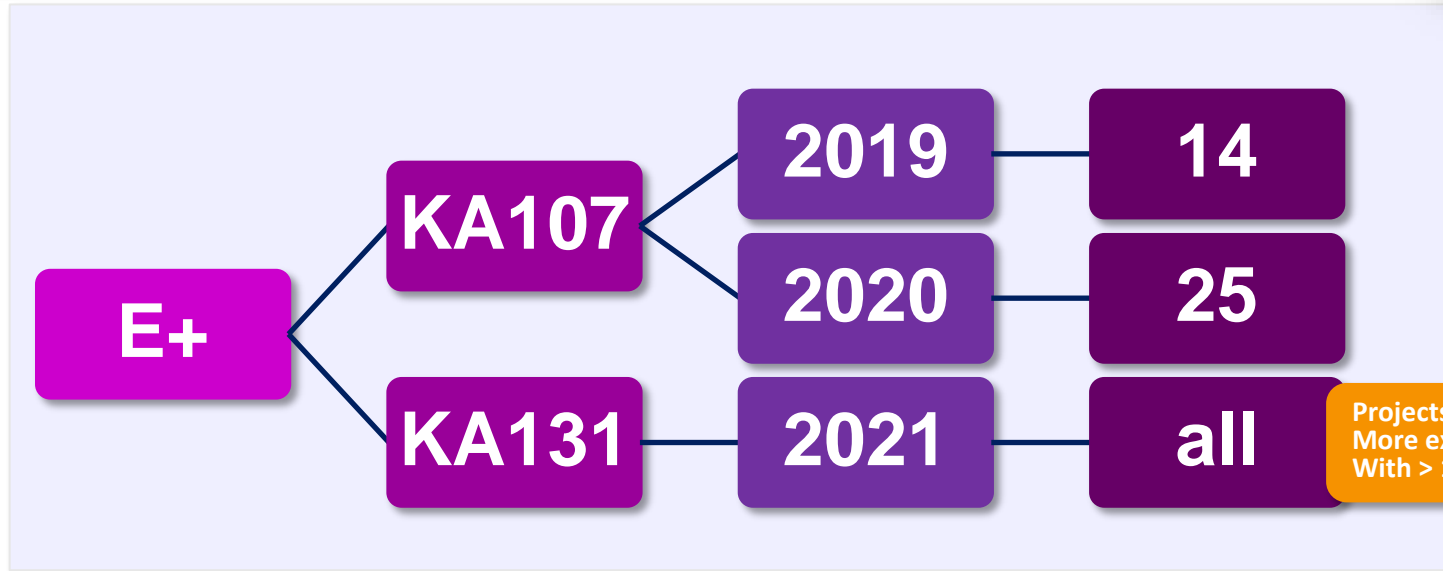

- Whenever it is assessed that the Ukrainian sending institution is not able to support and provide guidance, or cannot be involved in the organization of the mobility.

# Spanish Higher Education Institutions

## Spanish HEIs context

### Ongoing Projects with Ukraine as Partner country

**Projects:**  
 More experimented;  
 With > 1 mobility

- ❖ The provided flexibility in terms of regional budget transfers, as well as the adaptation of implementation rules, is foreseen to be extended to KA171 projects of Call 2022 currently under selection.

## Spanish HEIs context

### Ongoing Projects with Ukraine as Partner country

- ✓ **All Spanish projects implementing extraordinary measures will have to take into account that:**
- ✓ Adaptations need to be made at the request of project beneficiaries **on a voluntary basis.**
- ✓ The need of an **amendment to the Grant Agreement** will be determined by the magnitude of the adaptations in relation to the objectives of the original activity that is being modified and of the project.
- ✓ Some of the **activities are authorized** before the signature of the amendment.
- ✓ A situation of **force majeure invoked** by a beneficiary should be assessed on a case by case basis by the authorising officer.
