Alexander Dubček University of Trenčín

Our university is a young, fast growing institution providing focused on special technology, material and environmental healthcare, art and design in all three levels of higher education.

As any young institution of higher education, Alexander Dubček University of Trenčín is ready to take on new challenges and to respond flexibly as a significant center of science and research as well as of the common European Higher Education Area.

Our joint scientific research projects, educators and students regularly carry out internships and exchange studies paid by the European Commission in the following countries: Italy, France, Spain, Germany, Lithuania, Portugal, Russia, Bulgaria, Greece, Poland, Hungary and the Czech Republic.

And with Belarus and Ukraine.

Faculty of Industrial Technologies

Faculty of Industrial Technologies in Púchov is known as well as unique for its intense and close connection and cooperation with the manufacturing industry due to its adaptation and accurate modification of the structure, which is mainly based on the accredited perspective study programs. High-quality education as well as research and development lead to the education of students who become specialized enough to meet the industry demands. The given faculty can be included among the prestigious faculties for its focus on education of students in areas including polymer, inorganic, metallic and textile materials, numerical analysis and simulation of technological processes, environmental engineering and design. The faculty is able to provide high-quality and industry demand-driven education in three degrees of higher education. The level of employability of the faculty graduates in the specialized areas is high for a strong demand for technical occupations in the labor market.

Accredited Study Programs

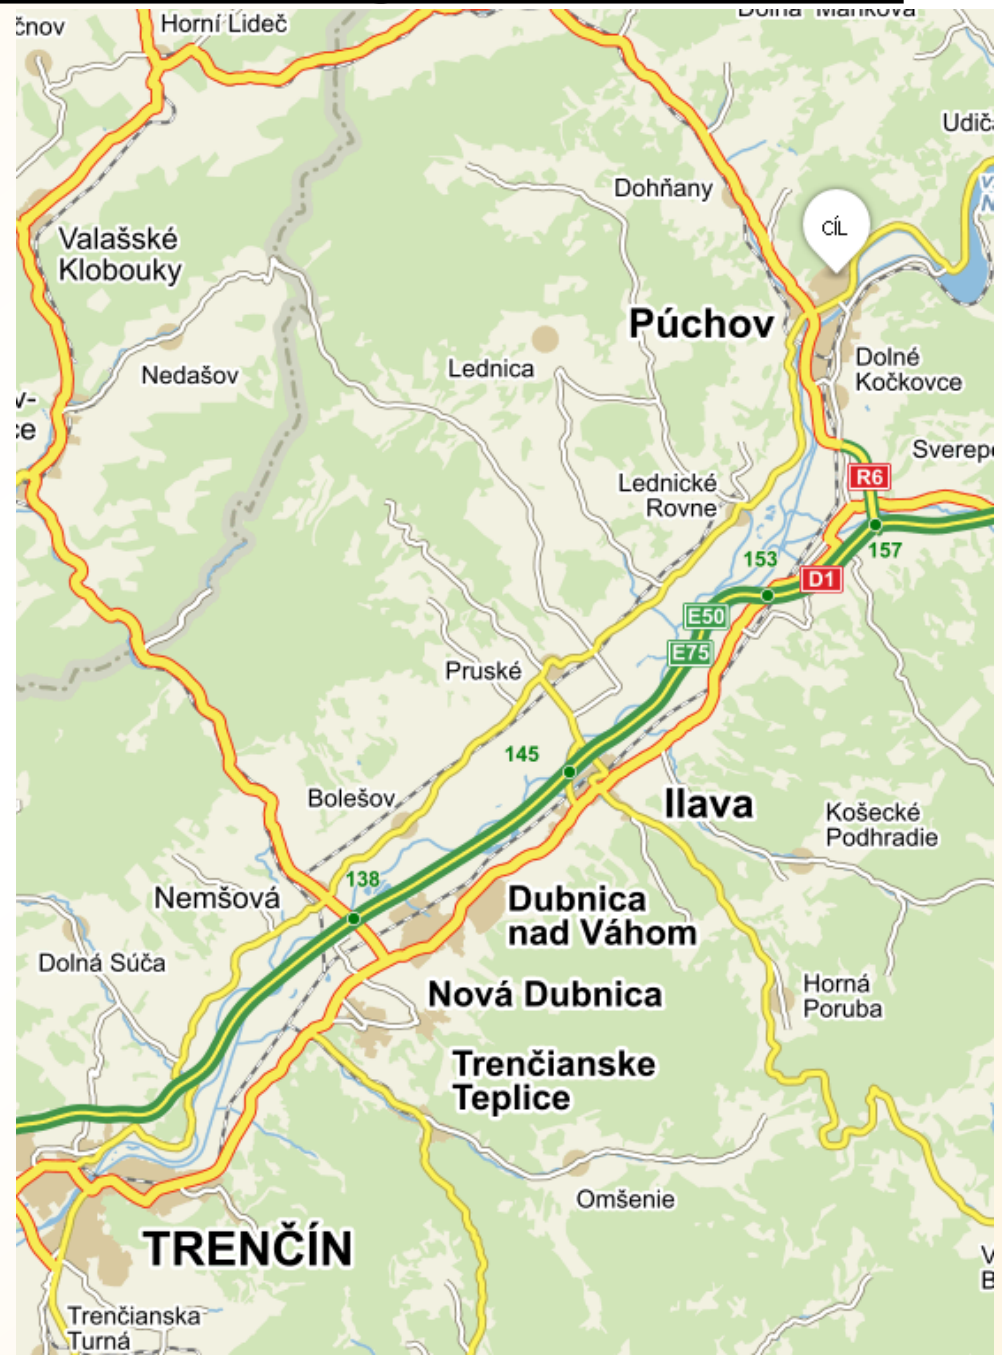

- Material Technology (in Slovak)
- Material Engineering (in Slovak)
- Computer-assisted Material Engineering (in Slovak)
- Textile Technology and Design (in Slovak)
- Material Engineering (in Slovak)
- Materials (in Slovak)
- **Materials (in English)**

ERASMUS+ with BELARUS and UKRAINE

our 3rd project Erasmus+ KA107 with partner countries

This year: Belarus and **Ukraine** !

2017 and 2018 with Belarus.

Course catalogue for Erasmus students.

http://erasmus.tnuni.sk/fileadmin/documents/INCOMING_students/FPT_17-18_courses.pdf

Subjects for Erasmus student stays for study at Faculty of Industrial Technologies in Púchov.

Note: we submitted application with more staff stays (4 from UA + 4 from SK) stays and student (5+2 = 450+120 days) stays from Ukraine, but our university received **about 40 % of planned finance for approx. 33 % of planned number of stays** (staff 1 from UA + 1 from SK; students 1+1 = 150+60 days). = Good plan of mobility number!!!

Preparation of ERASMUS+ project with UKRAINE

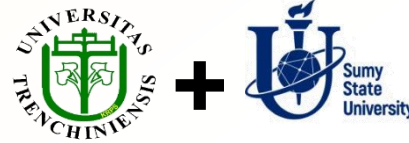

For project preparation we need from you

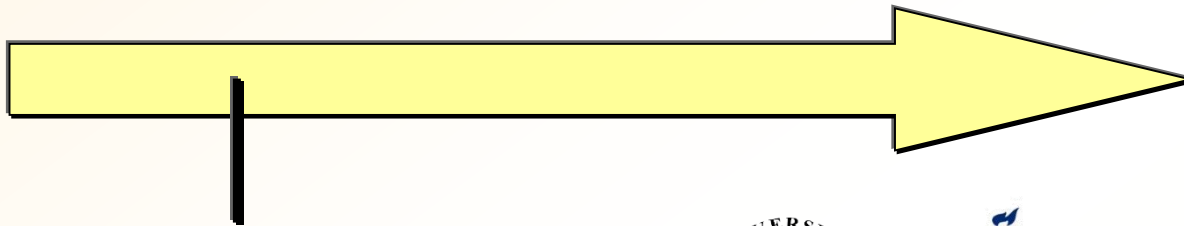

number of motilities (staff/students);
process about selection of students, ...;
information about study subjects at your university;
your website with course catalogue;
guarantee that if we win a project, you will post
information about project and cooperation with our
university on the website and also inform about our
visits to your website = we declare it in the project
proposal, where there will be outputs and what;
outputs can be common research publication, common
utilization of test machines etc. ;
PIC code, complete information about contact
person, and intensive communication !!!

Future plan for ERASMUS+ project with UKRAINE KA 107

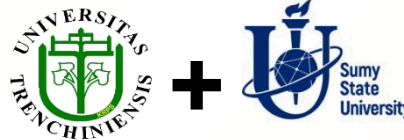

current project = from 07/2019

project for 36 months

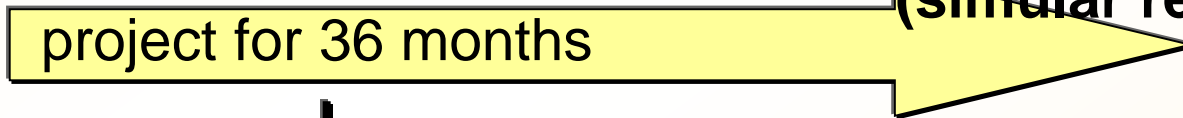

new call 02/2020

+ your university
(similar research area)

project for 36 months

new call 02/2021

project for 36 months

.....

STUDENTS FROM SUMY TO PÚCHOV

BEFORE STAYS (- 2 months before stays)

0) selection and nomination of students for study, SUMY send all information about student with copy of passport

1) we prepare **Invitation letter** in Slovak (from - to, Erasmus finance xx Eur, information about address of accommodation) with the our Rector's signature.

Not to use the word ~~mobility~~ because the word mobility is not recognized by the Foreign Police at Slovak Republic (mobility = for the Foreign Police it is the arrival of a student from another Member State of EU, where student has a residence permit, to study at Slovakia).

Use the word Erasmus + **study stay**.

Be careful Y/I (name as passport name) ! E.g. Zhylinski in passport / Zhilinski in other personal cards.

BEFORE STAYS (- 1 month before stays)

2) student, SUMY and Púchov coordinators: **Learning Agreement** with subjects and credits and signatures.

(help to student)

3) student must be send us number of bank account (IBAN, SWIFT) **in EURO !**

4) we: **Financial agreement** with the Slovak Rector's signature. After student send proof of purchase of the boarding pass (its scan via email), the university send money to student bank account (about three weeks before stay).

5) we: Book **accommodation**.

student: **Book an appointment at the Alien Police** in advance (via online system, possible before coming to Slovak Republic, one month ago)!

BEFORE STAYS

6) student: **The translation of the extract from the criminal record** for the Alien Police for the purpose of obtaining temporary residence should be done after entering the Slovak Republic in a certified translation agency in Slovakia or at Slovak Embassy in Ukraine (the translation must be fitted **with a tricolor ribbon**).

DURING STAYS

- A)** we help with **filling in form** for the Alien Police (student need one printing photo). **immediately**
- B)** we provide students with the opportunity to **learn in English**.
- C)** we **upload subjects into the electronic system** of AIS students. **ASIC card** (for gratis traveling by train at Slovak Republic) **immediately**
- D)** we inform about student stays **on faculty website**.

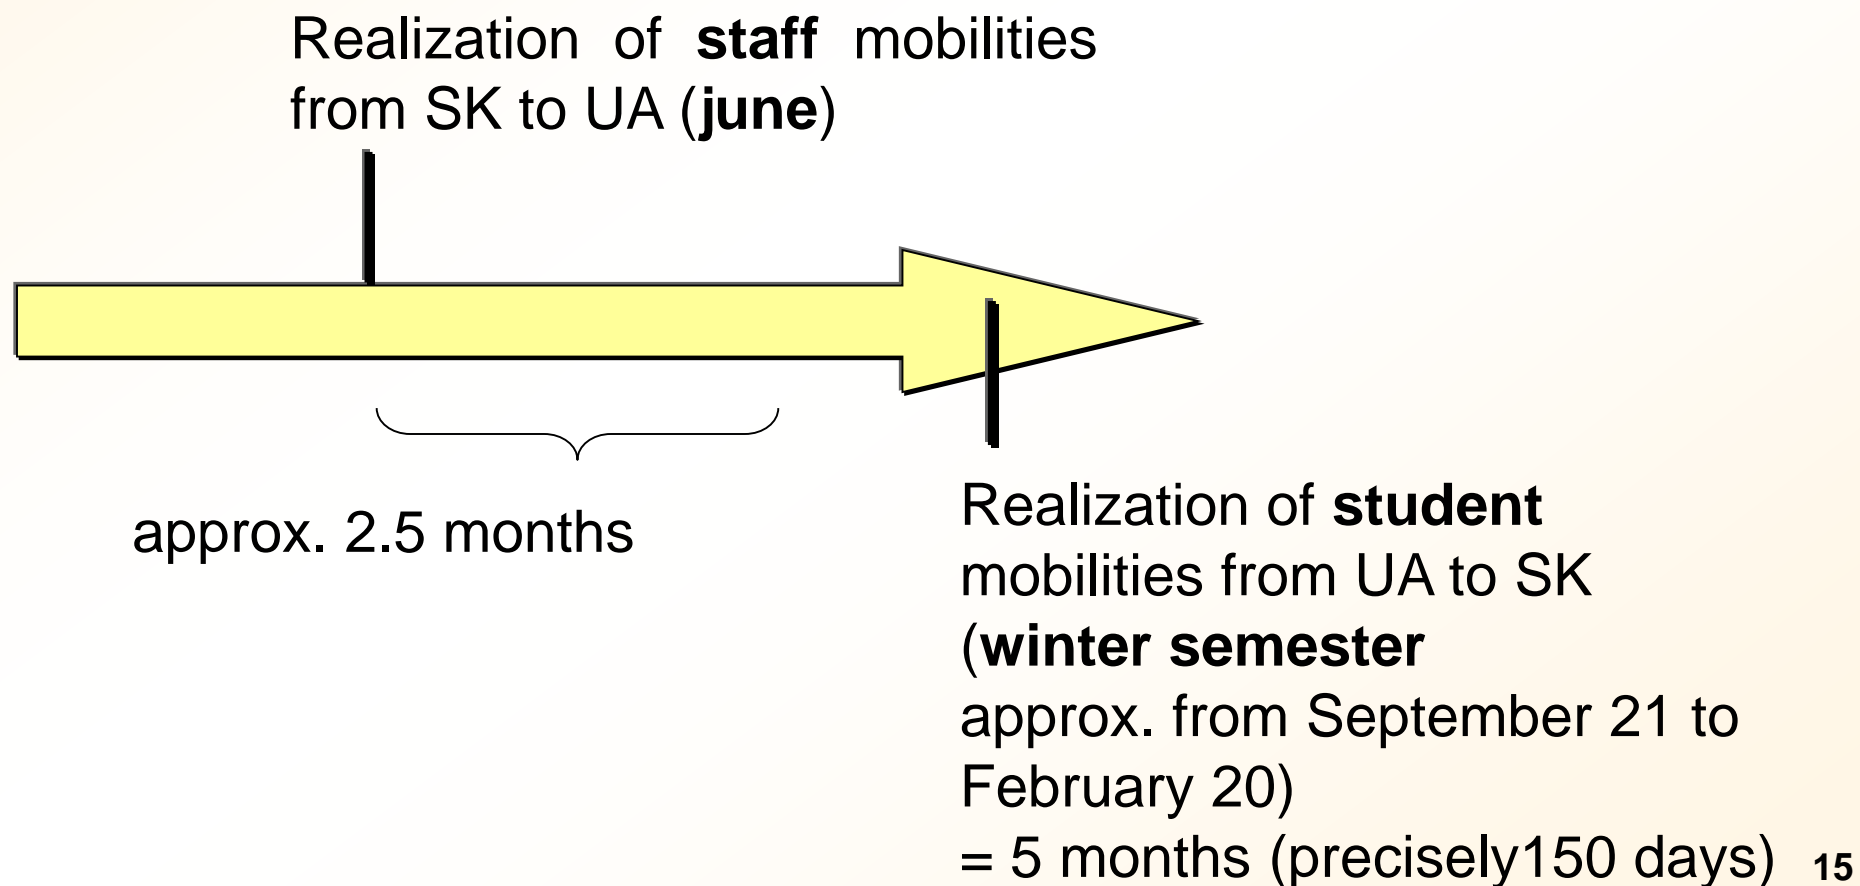

Before the end of stay

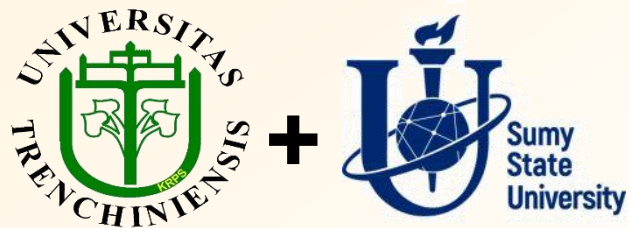

- E)** we inform student about **online electronic report** and its submission by the **deadline** (student can obtained it as spam email).
- F)** we make a **certificate with graduated subjects** and number of credits from AIS with stamp (in 4 copies).

CONCLUSION

Perfect cooperation with SUMY, we have **Agreement between TnUAD and SUMY, 2019** in pedagogically, scientifically and mobility activities (via programs NŠP – SAIA, Erasmus+).

There are **common publications** in journals, conferences (over 10).

Our Erasmus+ stay for lectures at SUMY :
one week at the end of September 2019
