AIM

Capacity building projects are **international cooperation projects** based on multilateral partnerships between organisations active in the field of VET in:

- EU Member States
- Third countries associated to the Programme
- Third countries not associated to the Programme

They aim to support the

- **Relevance**
- **Accessibility**
- **Responsiveness**

of VET institutions and systems in third countries not associated to the Programme

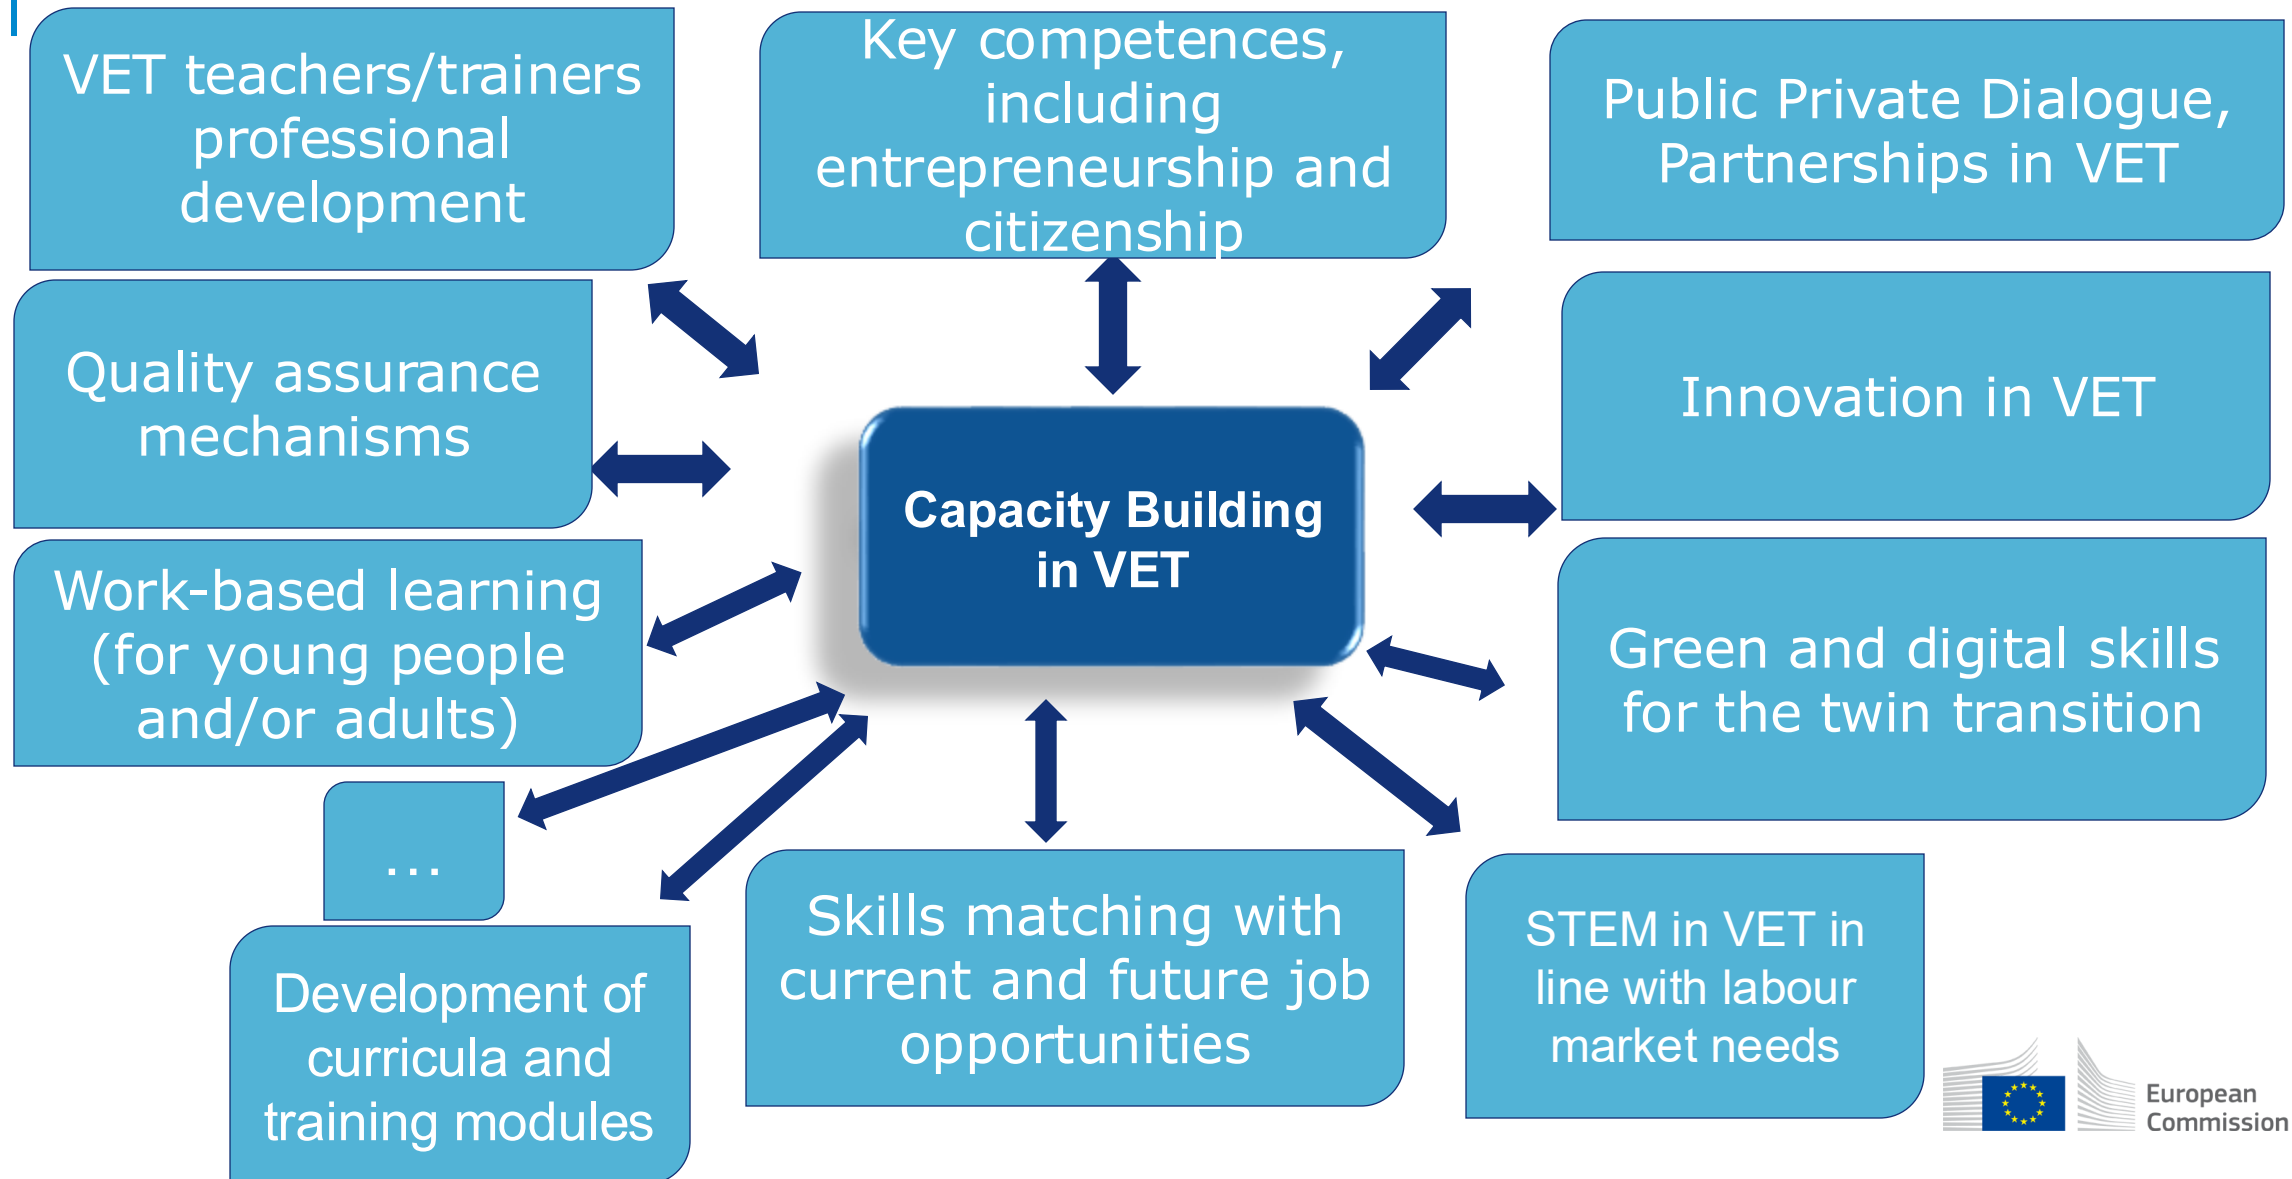

See promotional [video](#) on CB VET

OBJECTIVES

- **Build capacity of VET providers to strengthen cooperation between private and public stakeholders** in VET for demand-oriented and opportunity-driven VET interventions;
- Improve the **quality and responsiveness of VET** to economic and social developments to enhance the labour market relevance of skills provision;
- Align VET provision to **local, regional and national development strategies.**

THEMATIC AREAS – Focus on one or more

ACTIVITIES

Building and strengthening the capacities of organisations active in the field of VET **principally in the third countries not associated to the Programme covered by the action**

For example:

- Creating and developing **networks and exchanges of good practice** between VET providers
- Creating tools, programmes and other materials to build the **capacity of institutions** from third countries not associated to the Programme
- **Creating mechanisms to involve private sector** (design and delivery of curricula, work-based experience)
- **Developing and transferring pedagogical approaches, teaching and training materials and methods**, including work based learning, virtual mobility, open educational resources and better exploitation of the ICT potential
- Developing and implementing international (virtual) **exchange activities for staff** primarily

In case learner and staff mobility activities are proposed, these should contribute directly to the objectives of the project

WHAT COUNTRIES CAN PARTICIPATE ?

EU Member States (27 countries)

Third countries associated to the Programme (6 countries)

- North Macedonia, Iceland, Norway, Serbia, Lichtenstein and Türkiye

Third countries not associated to the Programme (102 countries)

- regions 1,2 (**Belarus is not eligible**),3,9,10 and 11

CB VET action – Selection results 2025

Call 2025 Summary

This year, a total of **611 applications** were received, with 568 proposals declared eligible. Compared to the 2024 call, this represents a 104% increase in submitted applications.

Considering the budget available, the Evaluation Committee recommended **73 applications** for funding. The average **success rate** is therefore **13% of eligible applications**.

Chances to receive an EU grant are radically lower than in the past years (2022 - 2024)

Calls 2025 **SELECTED** projects

[Article](#) for public on selected projects

73 new projects selected on international cooperation in vocational education and training

Newly selected international partnerships aim to align vocational training with industry trends and labour market needs, and help learners across Europe and beyond gain more skills that employers are seeking.

Capacity building in vocational education and training

Funded projects on capacity building in vocational education and training (VET) support cooperation between European and non-European VET organisations and close the gaps between VET and market opportunities. They are mostly targeting countries outside Europe.

Commitment to global partnerships

More than 27 million has been allocated to the 73 new projects, covering 73 countries and selected from a record number of eligible evaluated proposals.

The projects aim to create bridges to advance VET systems globally through knowledge exchange and mutual growth. They show again how the Erasmus+ programme is committed to building global partnerships beyond the EU.

Partnerships will be formed between European VET organisations and their counterparts in the West Balkans, South and East neighbouring countries, Sub-Saharan Africa, Latin America and the Caribbeans.

3. How to find coordinator/partner

Finding coordinator/partner – Try different ways

1. If you already have contacts with VET providers in EU or third countries associated to the Erasmus+ Programme, get in touch with them **to check if they plan to apply** under this action.
2. Contact **European networks** of VET Providers (e.g. EVTA, EVBB, EfVET, EUproVET) and networks that represent higher education institutions also active in the field of VET (e.g. EURASHE, EUCEN).
3. Organisation active in **lifelong guidance, counselling, learning mobility and career management** contact the European network [Euroguidance](#).
4. **Involve other Ukrainian organizations** – make your project stronger.
5. As Ukrainian organisation think to involve other organizations from the same region 2 - **Armenia, Azerbaijan, Georgia, Moldova** – it might be they have contacts to organizations from EU/third countries associated to the programme.

Finding coordinator/partner – Try different ways

6. Erasmus+ VET-related projects on the [Erasmus+ Project Results Platform](#). Please use the ‘advanced search’, selecting Erasmus+ Programme and within the different actions please focus on vocational education and training.
7. Use the section “*Partner search announcements*” - <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/how-to-participate/partner-search> - in the [Funding & Tenders Opportunities Portal](#) (FTOP)
8. **Contact Ukrainian VET experts** you know – it might they help you to find coordinator/partner.
9. **CEDEFOP – European Centre for Development of VET** <https://www.cedefop.europa.eu/en> , **REFERNET** – is a network of institutions. It provide information on national vocational education and training (VET) systems and policies in the EU Member States, Iceland and Norway. <https://www.cedefop.europa.eu/en/networks/refernet/national-partners>

Finding coordinator/partner – Try different ways

10. [EPALE \(Electronic Platform for Adult Learning in Europe\)](#) platform and/or you could register to the [Community of European VET practitioners](#).
11. The [Katapult Network](#) includes a network and matchmaking tool to build relationships with new partners. The direct link to the matchmaking tool is [here](#). [How does it work?](#)
12. If you are a member of the European Training Foundation (ETF) Open Space, you may look for partners [there](#). In particular, you may contact the [Network run by the European Training Foundation \(ETF\)](#) that includes numerous VET centers in Europe and ETF partner countries as well as the [ETF Quality Assurance forum](#) that involves more than 20 countries. In this context, you may consult the [ETF regions and countries](#).
13. Contact **National Erasmus+ Office** (see the list [here](#)), **Erasmus+ National Focal Points** (see list [here](#)) which may have received requests for cooperation from potential CB VET applicants.

4. Tips for applicants/ successful application

TIPS FOR APPLICANTS

- **Start today**
- **Strategy**, create **idea**, own **team**, decide about **coordinator and partners**
- Check model of **application** **ASAP**
 - PART B – Description of the action – **see in FTOP portal**
 - **ANSWER EACH GUIDING POINT OF EACH OF THE 4 AWARD CRITERIA**
 - Excel budget table – **see in FTOP portal**
- Be inspired by **successful projects** - check their project web pages and **deliverables**
- Improve your project and **re-submit it** (if it was not selected last year)

What makes a good project?

- **Consortium composition** (including players in VET, world of work, decision makers)
- **In line with policy documents and regional priorities** (see Programme Guide)
- **Clear needs analysis** (for the region/countries, for your partners, for your participants)
- **Realistic impact** (explaining what will your project change in VET, concise objectives) and existence of **recognition and validation of learning outcomes**
- **Balanced EU grant** (remember: focus is on third countries **not** associated to Programme)
- **Concrete outputs and deliverables** (clearly supporting capacity in VET, rather quality than quantity)

Relevance

- **Link to objectives, thematic areas, horizontal aspects and capacity building**
 - Less is sometimes more (select less objective and thematic areas, but focus on them in all sections of your application)
 - Examples of capacity building activities are in PG (no need to invent new). Capacity building element must be very strong, it is not sufficient to do e.g. “2 new modules in some sector...”.
 - Focus on partners, organisations, target groups, beneficiaries from third countries NOT associated to the Programme
 - To realistically reinforce capacity you need to know very well what objectives, thematic areas and capacity building activities are relevant for your partners, target groups, sector etc. in third countries NOT associated to the Programme (communicate intensively with these partners)

Relevance

- **Regional priorities**
 - Explicitly mention each policy document listed in the section “*Regional priorities*” and make a link/links between this document and your application
 - Respond to each regional priority of your region (not only to one or two)
- **EU values**
 - Link to EU values should not be artificial/declarative
 - Discuss deeply with your partners from third countries NOT associated to the Programme

Quality of project design and implementation

- **Local needs and context**

- Needs analysis - strong analysis (participating organisations, final beneficiaries, target groups), analyse the situation
 - Mention documents, surveys, analysis, partners' experience etc.
 - Do not mention too general information that could be used for any application in any sector/country
 - Distinguish between target groups (VET teachers in agricultural schools) and final beneficiaries (e.g. VET teachers of consortium's partners)
- Feasibility in the local context
 - Show knowledge of a local context to prove application's feasibility

Quality of project design and implementation

- **Coherence and methodology**

- Needs, objectives, activities and deliverables are not a patchwork, but are coherent.
- As more organisations work on an application, someone should give it a final look of coherence.
- The ways/methods how you address the needs identified

- **Work plan**

- How are qualitative and quantitative indicators used for activities and deliverables (e.g. it is not sufficient to mention usage of social media, but include also qualitative and quantitative indicators).

- **Selection of participants**

- Take into account inclusion and diversity and present them in your project.

Quality of project design and implementation

- **Recognition and validation**

- Mention explicitly the names of European transparency and recognition tools you/your partners will use
- Describe how you/your partners will use them

- **Quality control measures**

- Examples of potential deliverables/activities
 - Quality management plan
 - Quality criteria, tools
 - Involvement of beneficiaries, target groups
 - External quality evaluator (optional)

Quality of project design and implementation

- **Cost-effectiveness**

- Budget is balanced

- main aim of CB VET application is NOT to improve VET in EU and third countries associated to the Programme, this should be also visible in the budget distribution

- **Mobility activities**

- In case you have mobility in your project follow "Protection, health and safety of participants" in part A of the Programme Guide as well to other requirements and recommendations applicable to KA1 Mobility projects.

- **Innovation**

- consider all 3 elements:
 - *State-of-the-art methods, techniques
 - *Previous similar initiatives carried out by participating organisations
 - *Innovative results (field, geographical context)

Quality of partnership and cooperation arrangements

- **Configuration**

- Mix of partners (not all the same type, or only 2 types)
- Complementary partners (organisations with different role e.g. covering VET, industrial sector, private companies etc.)
- Do partners represent target group, sector, theme?

- **Commitment**

- Specifically of partners from third countries NOT associated to the Programme

- **Collaboration**

- Not only with participating organisations, but also with other relevant stakeholders (you name them and describe how you will collaborate – coordinate and communicate - with them)

Impact

- **Impact**

- short, medium and long term effects on participants and participating organisations
- Outside the organisations and individuals directly participate in the project – mention all levels local, regional, national and/or international
- impact indicators

- **Dissemination**

- Present your dissemination plan (Who, How, Why, When etc.)
- Dissemination within participating organisations
- Dissemination outside participating organisations
- See also the section “COMMUNICATING PROJECTS AND THEIR RESULTS TO MAXIMISE IMPACT” in the Programme guide

Impact

- **Exploitation**
 - How outcomes will be used by project partners
 - How outcomes will be used by other stakeholders
 - How outcomes will be used within a project lifetime
 - How outcomes will be used after project lifetime
- **Open access**
 - See section “ERASMUS+ OPEN ACCESS REQUIREMENT FOR EDUCATIONAL MATERIALS” in the Programme guide
 - See in “Part D - Glossary of terms” (last part of the Programme guide) the words e.g. “Open Educational Resources (OER), Open licence)
 - Deliverables should be freely accessible
 - Deliverables should be under open licence
- **Sustainability**
 - Sustainability plan
 - Producing impact after end of EU funding
 - Engage private sector

SUCCESSFUL PROJECT

- ✓ **Be coherent:** avoid contradictions and “cut and paste” style applications
- ✓ **Be concrete:** use examples, justify your claims, provide evidence
- ✓ **Be clear:** read the questions carefully, provide information in the correct order as indicated in the form
- ✓ **Be explicit:** take nothing for granted; don't assume that experts have prior knowledge; avoid abbreviations or explain them
- ✓ **Be realistic:** the application is the basis of your project to be; it is also the cornerstone of the commitment you will sign
- ✓ **Remain focused:** concentrate exclusively on what is asked of you
- ✓ **Eligibility:** make sure you have followed all instructions and that the proposal meets all mandatory requirements
- ✓ **Keep it simple:** use short sentences, vary the length if you wish to make it more interesting but keep it simple and focused
