Priorities of the Ministry of Education and Science of Ukraine

Minister of Education and Science Serhiy Shkarlet together with the team of the Ministry of Education and Science of Ukraine presented project proposals to solve urgent problems of Ukrainian education in the war and postwar periods.

The following priorities remain constant:

- **ensuring the sustainability and continuity of education;**
- **creating safe conditions for teaching and learning;**
- **psychological support of participants in the educational process;**
- **restoration of educational infrastructure in the near future;**
- **continuing reforms and qualitative transformations at all levels of education.**

Priorities of the Ministry of Education and Science of Ukraine

The Minister said that 5 more important projects have been developed, which can be implemented within 1-2 years:

- digital educational passport;
- creation of educational catch up programs and tools;
- creation of educational and practical centers in each field of education;
- career guidance and career building "Choose the profession of your dreams";
- training teachers / students to provide home care.

The implementation of these projects will help avoid educational losses and ensure the sustainability of Ukrainian education at a difficult time for the country.

Overview of the current state of education and science (regular updates)

In the overview following issues were described:

General information

Preschool, school, out-of-school education. Inclusive learning

Vocational Education and Training

Professional pre-higher, higher education

Research and innovation

Digital Transformation of Education and Science

Overview of the current needs

- Needs of Digital Devices for using digital technologies in education
- Needs to build Digital Education Ecosystem (Digital Education Passport): Lack of access to educational data for a person about himself/ herself, as well as inability to receive educational services via “single window” - information and data are concentrated in different systems
- Establishing educational and practical centres (EPCs) at VET institutions equipped with modern machinery and equipment that will contribute to training of skilled workers to meet needs of the national economy both in wartime and in the post-war period to rebuild the country
- search for new approaches and solutions to continue the educational process, opportunities to catch up or learn missed content and create a comfortable environment for children to return to the usual format of learning (Development of catch-up programs and tools)
- Ukrainian Education Hubs abroad (Currently a great number of Ukrainian children reside temporarily abroad. At the same time, Ukraine and specifically the Ministry of Education and Science of Ukraine are facing the problem of ensuring continuity of education for Ukrainian refugees in wartime)

Challenges for cooperation

- Recognition by the EU universities of prior study or belonging to the university without the documents which were lost/destroyed during war/ recognition for mobility periods
- Study or Traineeship for 1st year students, longer period of semester 4th year students
- Teaching, Training, Job shadowing for staff
- Passport/visa and crossing the border
- The male students and staff are not allowed to cross the border with some exceptions

EU stands with Ukraine

The European Union announces restrictive measures against Putin's regime in response to its brutal aggression against Ukraine and its people. Other measures are announced to support Ukrainian students, young people, teachers and educators. (Update: 8 April)

ERA4Ukraine - support to Ukraine

The screenshot shows the EURAXESS website interface. At the top, there is a navigation bar with the EURAXESS logo and several menu items: HOME, JOBS & FUNDING, CAREER DEVELOPMENT, PARTNERING, INFORMATION & ASSISTANCE, NATIONAL PORTALS, EURAXESS WORLDWIDE, and LOGIN / REGISTER. Below the navigation bar, the main content area features a section titled "#ScienceForUkraine". This section includes a paragraph describing the group as a community of students and volunteers from academic institutions in Europe and the world, with a mission to gather and disseminate information about support opportunities. Below the text is a link to "ПОБАЧИТИ БІЛЬШЕ" (See more). To the right of the text is a yellow box containing the hashtag "#ScienceForUkraine" and the URL "https://twitter.com/Sci_for_Ukraine". Below this, there is a section for "Inspireurope" with a logo and a paragraph describing it as a pan-European network of researchers at risk. A link to "ПОБАЧИТИ БІЛЬШЕ" is also present. At the bottom of the page, there is a footer with the text "Інформаційний хаб «Інститут гуманітарних наук IWM Україна»" and a small blue button with a downward arrow.
