## **Project implementation:**

Distribution of work areas in the of the project (according to the model):

### **Universities**

Microcredit ducational program

### **NGOs**

Social adaptation measures:

Psychological adaptation

Legal adaptation

Assistance in finding employment or  
starting a business

## Peculiarities

Joint project implementation by the university and NGO: Lviv, Ternopil, Vinnytsia, Chernihiv, Chernivtsi.

Parallel project implementation by the university and NGO: Kyiv, Odesa.

Selection of candidates – usually by a NGO. In Odesa – by the university.

## Lessons learned

NGOs were not involved in the stage of researching the labor market, IDP issues, and choosing the direction of the educational program in 2024.

Universities' proposals for improving the implementation of the project are based on the fulfillment of their responsibilities, and the expansion of the initiative (e.g., participation in the selection of candidates) can be implemented without additional funding.
