About EVBB

We are the EVBB, the European Association of Institutes for Vocational Training, and we are at the forefront of promoting Education and VET as key positive forces in our society.

We are a **non-profit network** of more than **850 Vocational schools, universities** and private **organizations** striving to make **education** a key component of our lives. By covering **all fields** and **levels** of education and training, our **Members** support the creation of a young, active, and employable **workforce** but also the continuous development of our **professionals**.

We believe that Vocational Training has the potential to become a **force** that can make our societies **stronger** and more **resilient** across current global trends and changes.

We have been working **for over 30 years** between Germany, Europe and the rest of the world following the values of an **education** that is **inclusive, relevant** and of **high-quality** – in other words, we strive for no less than **excellence**. This is the path that we will continue walking in the years to come. We do so in cooperation with a strong network of motivated Members across **three different continents** – Europe, Africa and Asia, and we aim to go forward, engaging in fruitful discussions and cooperation with partners from all over the world. We share the same commitment – to bring Vocational Training to the **future**.

How do we achieve this?

We work every day on different **initiatives** that keep our network engaged in this long-term process.

Institutional Partners

We constantly work and discuss with our Institutional Partners: EVBB is a proud member of the European Civil Society, advocating for better education & training at the heart of the European Union. Meet some of our partners. We want the voices of our grassroots institutions to be heard.

Events and workshops

Connecting with like-minded organizations is key to creating a system that works efficiently together across different dimensions of education and training. The EVBB participates in more than 200 hundred face-2-face and online meetings with education stakeholders, while we organize eight major events ourselves – the most ambitious ones? Our Annual Conferences!

International cooperation projects

We talk with our Members and network on a daily basis through cooperation projects funded by international institutions, such as the European Commission, the European Training Foundation etc. Through these initiatives, we foster new connections and create the practical tools that can bring VET into the future. We work on 30+ projects across key European industrial ecosystems, such as new technologies, tourism or silver economy among them.

The EVBB is a **global network**. We are proud to connect vocational schools, institutions and training experts from China, Kenya, Palestine, Malaysia and so forth. Our mission towards **Third Countries** is that of creating a **global movement** that makes **Human Development** a key priority across countries and borders – no matter where they are.

Сайт EVTA (European Vocational Training Association)

The European Vocational Training Association – EVTA, is a leading European network in the field of Vocational Education and Training, representing VET providers across Europe. Established in Belgium in 1998 as an International No-Profit Association (AISBL), EVTA is the result of the cooperation between VET providers from different EU countries in the framework of the Euroqualification project.

In the last decade, EVTA has evolved into an important stakeholder in the field of VET and human capital development, participating in various cooperation and concertation tables, providing support to its member organisations and ensuring that their needs and expectations are fulfilled.

It focuses on the development of VET within the framework outlined by Europe 2020, through:

- ➔ enhancing of the quality of VET.
- ➔ promoting the cooperation of VET providers/businesses.
- ➔ providing specific expertise.
- ➔ disseminating the work based VET approach.
- ➔ cooperating in the European dialogue involving institutions, stakeholders, social partners and training providers.

EVTA has specific expertise in: restructuring process in enterprises, learning outcomes based approaches, work-based learning, internationalisation in VET, mobility and the use and implementation of the European reference tools (ECVET, EQF, EQAVET, Europass, NFIL) among others.

The Center's teachers are highly qualified specialists with many years of experience in the field of employment, education and professional development. Each teacher is an expert in his field, which allows students to receive relevant and practically oriented knowledge. The educational institution has developed and implemented distance [learning platform](#).

The distance learning platform operates 24/7.

By 2025, it is planned to train more than 3,500 people who will receive modern professional competencies.

The VET institution actively develops international activities with the aim of integration into the modern European educational space.

The key areas of international activities are:

- promoting international mobility of workers, namely creating conditions for specialists to participate in professional exchanges, international internships and study visits, as well as hosting international experts to exchange best practices;
- development of partnerships with foreign institutions for joint implementation of best practices;
- modernization of the educational process in accordance with European Union standards;
- **participation in international projects and grant programs to obtain funding** for the implementation of educational initiatives, modernization of infrastructure, staff training, and digitalization of the educational process.
- supporting the green and digital transition, which is in line with the strategic priorities of the European Union (the introduction of environmentally sustainable practices, energy-efficient technologies, as well as the development of digital competencies as key skills of the future).
