UKRENERGY project

Overview

Project aims:

- ✓ Establishment and implementation of a new Master Programmes on "Energy Efficiency, Building Retrofitting and Energy Planning" in Ukrainian (UA) Higher Education Institutions (HEIs),
- ✓ Promotion of best practices in the terms of educational methodologies and specific knowledge related to the energy efficiency and sustainability of buildings.

Specific objectives achieved:

1. Curricular development tailored to labour market requirements and enabled to support the graduates' employability expectations by training with up-to-date methodologies in energy sustainable buildings. New study programmes (SPs) implemented with different training directions according to the local needs. SPs implemented in the 3rd project year with development process completed by the updating of didactical laboratories and new joint UA-EU teaching aids materials.
2. Links university-enterprises: networking among UA HEIs and stakeholders was developed to remedy to the currently fragmented scientific background in Energy Efficiency and Sustainability and to the lack of distribution of knowledge, expertise, info, and data.
3. "EU - Ukraine Green Deal Network" established to enhance in actual terms the leading role of HEIs in policies related to Energy Efficient and Sustainable Buildings, keeping into account the requirements set by the UN 2030 Agenda.

To spread and promote UA awareness related to EU policies referred to Sustainable and Energy Efficient Buildings and enhanced the approach to EU best practices.

Main project beneficiaries: UA Sr. and Jr. teachers, and students enrolled in the SPs.

The following online links by the **Teams** platform have been set-up:

- Day 1, Wednesday 28 Oct. 2026, h 09:30

- Day 2, Thursday 29 Oct. 2026, h 09:30

Final Conference expected outcomes

- Increasing awareness on energy sustainability of buildings, up-to-date topics, job opportunities, related multidisciplinary trends (e.g.: engineering, finance, etc.), and EU Experience.
- UKRENERGY experience: international dimension and innovative approach to design, delivery, and implementation of Master Courses.
- Impact of HEIs and Enterprises cooperation for meeting labour market expectations.
